LETTER OF RECOMMENDATION

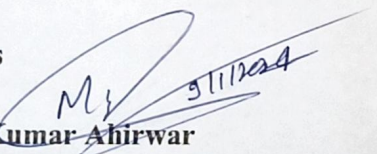

I am delighted to recommend Pranam Jain for the Master's Program at your esteemed institution. I am writing this letter in the capacity of his academic mentor while he was pursuing his bachelor's degree in Computer Science Engineering from our prestigious institute University Institute of Technology, RGPV. He is an excellent student when it comes to hard work and academic aptitude.

A sincere, highly intelligent, and responsible student, Pranam has successfully maintained an ethical academic record in the courses taught by me. He has been among the few such students who have provided all assignments before their deadlines and with optimal scores. His performance is driven by clarity of fundamentals and basic concepts, enabling him to swiftly latch onto new topics and fields with ease.

He has been highly active throughout the academic session of the institution. While working on his major project, to develop the Sportsfest Registration Website, whose aim was to register students for distinct sports and provide information about the event, Pranam provided all the insights required to develop the task. During the project, I admired his interpersonal skills and technical adeptness. Pranam had the process flow laid out, which he met by putting in the required additional effort. He also exhibited a lot of grit and was outstanding in his methodology for approaching problems. He successfully completed the entire project with full zeal, enthusiasm, and commitment.

A student who believes in working hard and maximizing his capabilities, Pranam will be striving to fulfill all his responsibilities under your guidance. His continual ascertainment towards learning and self-growth along with superior skills in time management will surely take him a long way in the future. I strongly recommend him for admission into your institution.

Kind Regards

Mr. Manish Kumar Ahirwar
Associate Professor - Department of Computer Science
